# Controlled Area Buoy

- A white buoy or sign with an orange circle and black lettering indicates a controlled or restricted area on the water. The most common controlled area within Voyageurs National park is 'Slow-No Wake' speeds. 'Slow-No Wake' means operating your boat at the slowest possible speed necessary to maintain steerage, but not greater than five miles-per-hour.

# Danger Buoys

- A white buoy or sign with an orange diamond warns watercraft operators of danger rocks, dams, rapids, etc. The source of the danger may also be lettered in black.
- Rocks or logs are abundant certain areas of the lake, please use caution when boating in these areas.
